A Collection of Powerful Registration Tools

■ 2 PLU Formats

1. Short PLUs

- Sales data (amount/quantity)
- Open PLU

2. Long PLUs

2 registration methods

- ① Using Flat-long PLU key
- ② Using PLU number or random PLU code and [PLU] key

Sales data	Stock data	Bottle link	Set menu	Random PLU
------------	------------	-------------	----------	------------

- Sales data (amount/quantity)
- Open PLU
- Stock control (actual stock totalizer, presettable minimum stock quantity, reorder warning)
- Bottle link
- Set menu function
- 6-digit random PLU function

■ 2 Tax Tables Plus Manual Tax Key

- 60 breakpoints per table
- Taxable status shift key
- Tax exempt key

■ Canadian Food Tax System

■ 2 Types of Subtotal Keys

1. Subtotal key
(subtotal including add-on tax amount)
2. Merchandise subtotal key
(subtotal without add-on tax amount)

■ Food Stamp System

■ Multiple Item Totaling Function

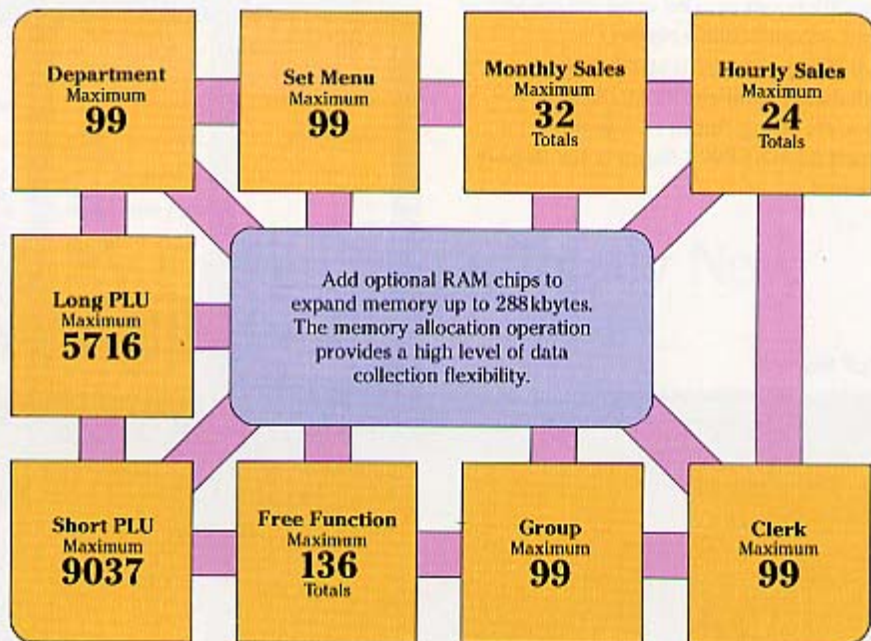

■ Currency Exchange Function

■ New Balance and Previous Balance

- Operation with Check Digit
- New balance totalizer

Expandable Information

Wide ranging flexibility lets you expand the system into the configuration most suitable for your business needs.

The number of memories that can be reserved depends on memory capacity and the memory allocation used. Note that the values shown here are maximum values, and allocation of other memories may make these maximum memories unavailable even if maximum memory capacity is installed.

Total Operational Security

■ 8-position Mode Switch

- X1, X2/Z2, PROGRAM mode secret number
- Manager control mode for drawer assignments, training mode access, stock quantity maintenance, and price/rate maintenance

■ Drawer Open Alarm With Compulsory Drawer

■ Applicable Mode Control for Department Keys, PLUs, and Function Keys

■ Sentinel Function

■ Compulsory Cash Declaration

A Host of Other Useful Features

■ 2 Easy-to-Read Displays

- Large operator display with 8 transaction indicators
- Pop-up rotary customer display

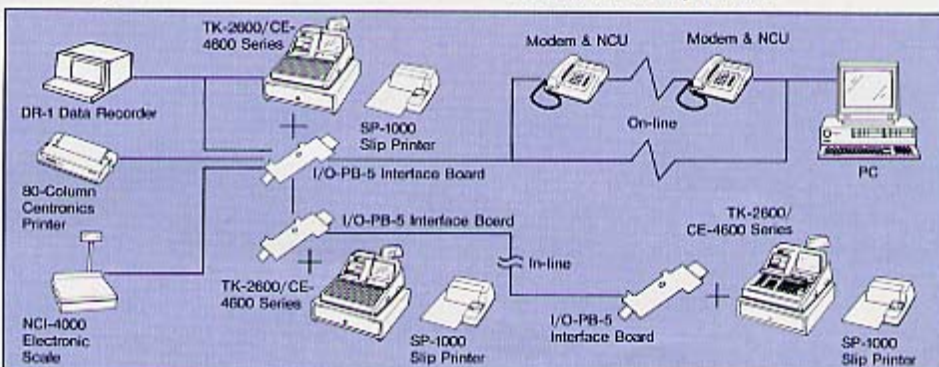

■ Training Mode

■ Helpful Error Message Display

Versatile Expandability

The Optional I/O-PB-5 Interface Board and Optional ROM Chips Allow Expansion Into:

- In-line system
- On-line system
- Centronics printer capabilities
- Electronic scale capabilities
